### Λαβές GRS

#### **Monarch**

This is the finest impact handpiece for confident execution of ultra-fine engraving, including builino and banknote styles. The Monarch features heat-treated stainless steel construction with an adjustable side hose connection. This hand piece is not intended for stone setting. For Airtact.

**Monarch, Anodized**  
#004-921-AT

length: 2.31" (59 mm).  
Weight: 2.16 oz (61.23 g).

**Monarch, Stainless**  
#004-921-ATSS

length: 2.31" (59 mm).  
Weight: 3.36 oz (95.25 g).

#### **901**

Get breakthrough impact technology with fine control and a huge range of power. The comfortable, compact shape has an adjustable side hose connection. It fits most engraving and stone setting needs, including micro engraving, deep reliefwork, and bead raising/hammer setting. Made from fully heat-treated stainless steel. For Airtact.

**901, Anodized**  
#004-901-AT

length: 2.6" (66 mm).  
Weight: 2.72 oz (77.11 g).

**901, Stainless**  
#004-901-ATSS

length: 2.6" (66 mm).  
Weight: 4.16 oz (117.93 g).

#### **Magnum, Stainless** #004-940-ATSS

The Magnum's range of power, from amazingly heavy to very fine, is misleading for its size. This handpiece exceeds the power of previous models that are twice the length. It also has fine control with shading capability significantly better than any hand piece with this much top-end power. For Airtact.  
Weight: 5.68 oz (161.03 g). length: 2.72" (69.2 mm).
